For the attention of the Head of Physical Education

Dear Sir/Madam

Re: Simple and practical tennis for Key Stage 3 and 4 pupils. Plus a VRQ Level 2 qualification that yields 46 performance points per pupil. Discover one of the most successful coaching methods in the world.

An introduction

My name is Andy Magrath and I'm the Co-Managing Director of **Modern Tennis International (MTI)**. We deliver the highly effective **Modern Tennis method** to coaches, teachers and players all over the UK and Europe. We have teamed up with one of the **foremost Sports Specialist Colleges in the UK, Charters Sports College**. We have devised a complete schools programme that offers secondary schools the following options:

- ✓ Full teacher training, resource and support package to encourage teacher led tennis PE lessons, which in turn raises pupil awareness. This will promote any on site/off site local tennis activity.
- ✓ Optional exit route to a comprehensive, school's league called 'Easy Tennis.'
- ✓ Offer a **VRQ Level 2 in Sports Activity Leadership** to your key stage 4 pupils. It is the equivalent to a **GCSE Grade 'B'**.

This qualification yields 46 performance points per pupil

Please visit www.activeiq.co.uk for further details on this qualification.

Does this system really work in schools? Visit this link to find out:

No previous tennis experience is necessary from either your staff or pupils. The VRQ course is very easy to follow for both teachers and pupils.

The course workbook covers all aspects of the qualification. It details lesson planning, health and fitness, health and safety, the principles of training plus much more.

This qualification allows pupils the chance to become involved in a sport which may have passed them by previously.

Both teacher and pupil will have assessment sheets and lesson plan templates to help guide them. Our eBook also contains the rules of tennis. The DVD shows the step by step progression programme to help formulate lesson plans.

We have covered all mediums of learning – both teachers and pupils will receive their own copies.

Pupils must be allowed to keep the workbooks and DVDs for their future use.

Pupils will not only gain a qualification, they will also learn many important life skills such as communication, organisation, punctuality, presentation, health and safety. Plus a renewed sense of confidence.

Meets the needs of all pupils

All Modern Tennis courses are suitable for pupils with special needs. They are also suitable for pupils who require wheelchair usage.

More about Modern Tennis and MTI

Modern Tennis methodology is used with huge success in Argentina, Spain and Russia. It was devised by coaching guru; Oscar Wegner. Why is it successful? Because the simple progressions make tennis, easy and fun to learn.

Modern Tennis has only just been formally introduced to the UK through MTI.

MTI's mission statement is to increase tennis participation within the UK. We have over 45 years of tennis coaching experience. We run courses, which are accredited by the Lawn Tennis Association (LTA).

We have tutored over 500 UK tennis coaches, who now teach this method. Our team of professional tutors are now launching these brand new courses within the school/college community all over the UK.

We are proud to say that MTI has become one of the key suppliers of coach education and programme planning, for the David Lloyd Leisure Group, worldwide.
